

C.R. ENGLAND REDUCED CLAIMS COSTS

The Challenge

Ensure temperature compliance, maximize fleet utilization and minimize loss to damage and claims for its 7,000 North American refrigerated trailers.

The Solution

Rugged, two-way telematics devices with cellular and satellite connectivity for remote monitoring and control of trailer temperature with exception-based alerting.

The Results

Temperature management reduced claims by 44% for hundreds of thousands of dollars in savings.

Reduced number of trailers sitting idle for more than 30 days by 53%.

Achieved compliance with FSMA regulations.

C.R.England

“As the largest refrigerated truckload fleet in the nation, we had an obligation to be on the cutting edge of product protection technology.”

Ron Hall,
VP of Equipment and Fuel,
C.R. England, Inc.
